

Let Everyday Be an Earth Day

Text:

Earth day is a special day that celebrates the earth. More than 100 different countries join together in the celebration of Earth Day on April 22nd to say that they care for the Earth. On Earth Day, we remember to appreciate nature, learn and teach ways to protect our environment. These ways can come from governments, organizations or individuals. Governments should set laws to protect the environment and punish offenders. Municipalities should provide litter bins in every corner. Garbage collectors should keep things like plastics, glass, and paper because they can be recycled or reused. By recycling used things we reduce pollution and waste of raw materials. To make people more conscious, we can show TV programmes and organize campaigns about what to do and how to behave to save the environment. Students at school can prepare posters or leaflets to sensitize their classmates. Farmers can be of a great help, too. When they use less pesticide and produce more organic food, they help people become healthier.

1- Why do people celebrate Earth day?

2- Complete the table with information from the text:

	Actions to be taken
Governments
Media
individuals

3- Label the pictures with words from the text:

P - - - - -

L - - - - -

p - - - - -

L - - - - -

4- Find in the text words meaning the same as the following ones:

To know the value of something=

To decrease, diminish =

To be aware of something =

5- Read the emphasized words in the text. What do you notice?

.....

.....

6- Make compound nouns:

- The pollution of the air →

- Problems of breathing →

- Cancer of the lung →

Writing:

It is April 22nd. Describe what you have done with your classmates to celebrate Earth Day.

On Earth Day, My friends and I.....
